Meeting**

**4 May 2007**

Brian Guzzone

US Environmental Protection Agency  
Climate Change Division  
Landfill Methane Outreach Program

# Status of M2M Landfill Biogas Sector U.S. Involvement

---

- 2 landfill pre-feasibility studies completed in Mexico
- 3 pre-feasibility studies underway in Ecuador(2) and Argentina(1). 5-6 additional studies planned in Columbia(1), China, India(1) and Ukraine(2)
- 12-15 landfill assessment reports recently completed or underway
- Country-specific landfill gas models will be developed or revised for Argentina, Ecuador and Mexico.
- Over 10 training and capacity building workshops completed and 3-4 additional are planned in '07
- Up to 11 grants preliminarily awarded (FY08)

# USG Landfill Sector Efforts to Support Partnership Expo 2007

---

- **Country-specific marketing efforts**
  - Targeting outreach to major sector trade associations (e.g., articles, PSA placement)
  - Outreach to LMOP Partners (over 400 companies and organizations)
  - Presentations and exhibiting at industry conferences (targeting two largest industry trade conferences)
- **Attendance and participation**
  - USG is the host organization
  - 4 sectors will be represented/supported
- **Project opportunity presentations**
  - 4-6 pre-feasibility studies (includes travel sponsorship for certain municipal officials)
  - Up to 15 additional landfill assessments
  - Working with ASG to input projects into expo template and develop output template and posters
