Partnership Background

- Advances recovery and use of methane as a valuable clean energy source.
- Encourages development of **cost-effective** methane recovery and use opportunities in:
 - Agriculture (e.g., animal waste management)
 - Coal mines
 - Landfills
 - Oil and gas systems
- Acts as a mechanism to bring together interested parties from governments and the private sector to facilitate methane project development and implementation around the world.

M2M Partnership Organization

25 Partners* and 770 Project Network Members

•Finland and Kazakhstan are expected to join within 2 months bringing the total number of Partners to 27

 - Continue outreach efforts to recruit Project Network members and encourage greater participation, develop recognition recommendations.
 - Continue utilization of communications and outreach vehicles (e.g., Web site, newsletter) to promote activities.
 - Increase utilization of online project tracking system.

2007 Expo Follow-up

- Deemed a great success!
 - More than 750 people attending from over 40 different countries.
 - Showcased 91 project opportunities from 11 countries.

- At least 8 projects are moving forward and/or are in negotiations with potential investors now.

- The ASG continues to follow-up with showcased projects to learn how activities are progressing and will provide a recap at the Steering Committee meeting in December 2008.

Next Expo: Planning Update

- Based on 2007 Expo outcomes and Task Force recommendations, the Steering Committee unanimously agreed to hold another Expo in late 2009/early 2010.
- Expo Task Force has been resurrected and additional interested parties are encouraged to participate in the planning.
- Request for host country has been issued.

Partnership-wide Accomplishments Report

- **Objective:** To provide a broad summary of the Partnership, its activities and its progress to date.
- **Timing:** Anticipated production/availability will coincide with next Expo.
- **Next Steps:**
 - Begin developing content in June 2008, draft text available for review by October 2008.
 - Provide draft mockup for review at Steering and Subcommittee meetings in December 2008.
 - *Need to identify Subcommittee leads for Landfill Sector content*

Country-Specific Strategic Plans

- **Objective:** To develop country-specific strategic plans that focus Partnership activities more strategically, depending on the experiences and needs of each individual country:

- **Next Steps:**
 - Discussion papers (see attachments #1-2 to agenda)
 - Agenda item for further discussion

Project Network Recognition

- **Objective:** Increase involvement of the Methane to Markets Project Network by encouraging participation in Partnership activities (e.g., Subcommittee meetings, project opportunities), and acknowledging Methane to Markets accomplishments and contributions of these members.

- **Timing:** Implement recognition program in 2009.

- **Next Steps:**
 - White paper developed (attachment #3 to agenda)
 - Agenda item for further discussion
 - Incorporate input from Subcommittee and provide final recommendations to the Steering Committee at next meeting.
