

Methane to Markets

On August 26 and 27, 2010 Methane to Markets held a Landfill Gas (LFG) workshop at the 8th National Congress ICLEI Conference in Cancun, Mexico. The event was held at the Hotel Gran Meliá.

Approximately, 26 people attended the module. Among the attendees were federal, state and city officials, consultants, project developers, and students. The workshop main objective was to present landfill gas to energy projects and financing. The agenda was as follows:

- Welcome, Victoria Ludwig, USEPA and Edgar Villaseñor, ICLEI México
- LFG Collection and Control System, and LFG Utilization, Sandra Mazo-Nix, SCS Engineers
- Compliance with NOM-083, SEMARNAT, Ing. Myriam Gabriela Velasco Pérez
- LFG Project at the Norte Landfill, Cancun, Mexico, Jose Miguel Flores, Energreen
- Project Financing, Jose Luis Davila, SCS Engineers and Gil Aranda, Espiritu Santo Bank
- Development of Tender Technical Documents, Jose Luis Davila, SCS Engineers
- Site Visit to the Norte Landfill

Methane to Markets thanks SEMARNAT, ICLEI Mexico, the City of Cancun, and the Norte Landfill for their support on the preparation of the workshop.
