

## Methane to Markets

On September 14, 2010, Methane to Markets and the University of Antioquia presented the Colombia Landfill Gas Model Workshop. The event took place in the Main Auditorium of the University's Public Health School in Medellin, Colombia.

Approximately 60 professionals from federal, state and local governments, waste management companies, consultants, developers, and students participated in the event. The main objective of the workshop was to present the new Colombia Landfill Gas Model, developed by the U.S. Environmental Protection Agency.
