

Methane to Markets

Oil and Gas
Subcommittee Goals
and Actions

Methane to Markets Goal

- The Methane to Markets Partnership is to **reduce global methane emissions** in order to enhance economic growth, strengthen energy security, improve air quality, improve industrial safety, and **reduce emissions of greenhouse gases.**

Oil and Gas Subcommittee Actions

- Engage the international oil and gas industry and governments of oil and gas producing countries, to improve awareness of methane emission reduction opportunities in the oil and gas industry
- Facilitate and enhance the application and broad adoption of methane emission reduction technologies and best management practices in the oil and gas sector

Oil and Gas Subcommittee Actions

- Improve and facilitate access to capital to support investment in internationally credible and easy to implement methane emissions reduction projects in the oil and gas industry
- Providing robust information on and access to the many available and emerging, cost effective methane emission reduction technologies and management practices for the oil and gas sector
