

Join the Project Network

Project Network members bring critical expertise and experience that help GMI Partner countries reduce methane emissions.

About the Project Network

The Global Methane Initiative (GMI) Project Network links a variety of organizations together to advance methane mitigation through communication, project development and implementation, and private sector involvement. Members, which include private-sector companies, energy end users, local government organizations, research programs, financial institutions, and other non-governmental organizations, provide direct access to in-depth experience and technical expertise to other Project Network Members and GMI Partner Countries for methane emission reduction. Working with the GMI Steering Committee and Sector Subcommittees, Project Network members have helped GMI leverage nearly \$600 million in investment from private-sector companies and financial institutions to recover and use methane as a renewable energy source around the world.

Why Join the Project Network?

Engage:

- ❖ Attend GMI Subcommittee meetings and events
- ❖ Participate in technical workshops and knowledge-sharing events
- ❖ Join networking events with other industry experts and representatives of non-governmental, financial and government organizations

Take Action:

- ❖ Reduce costs, reduce waste, and generate profits through methane abatement, recovery, and use projects
- ❖ Identify and secure funding for projects
- ❖ Submit project ideas and activities to GMI Subcommittees

Promote Your Efforts:

- ❖ Highlight your expertise, technologies, or research via the GMI website, Project Network newsletter, social media and case studies
- ❖ Showcase your methane mitigation efforts via the Global Methane Challenge
- ❖ Use the GMI logo on your organization's website

Learn from Others:

- ❖ Gain direct access to technical expertise and assistance
- ❖ Identify opportunities for projects
- ❖ Take advantage of GMI's extensive resource library
- ❖ Exchange ideas with GMI's 45 Partner Countries and more than 700 Project Network members to promote multidisciplinary and multinational collaborations
- ❖ Stay up-to-date on the latest international methane news, reports, and technologies
- ❖ Receive information tailored to your interests with GMI's customized mailing list

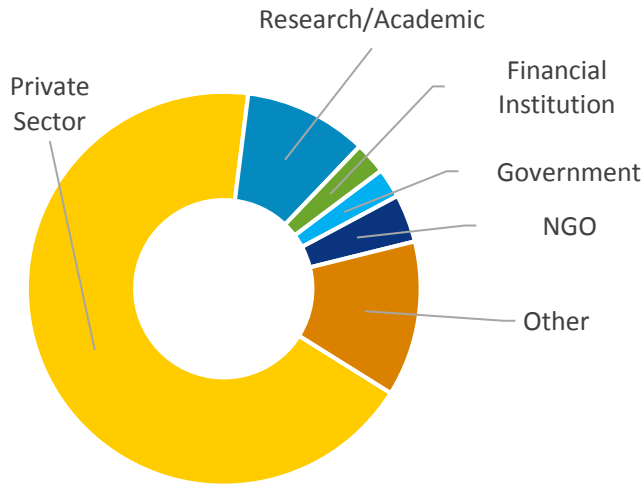

Contribute your Expertise:

- ❖ Share technical expertise and offer assistance to other members
- ❖ Help identify solutions to methane mitigation project development barriers

Who is in the Project Network?

Organization Types

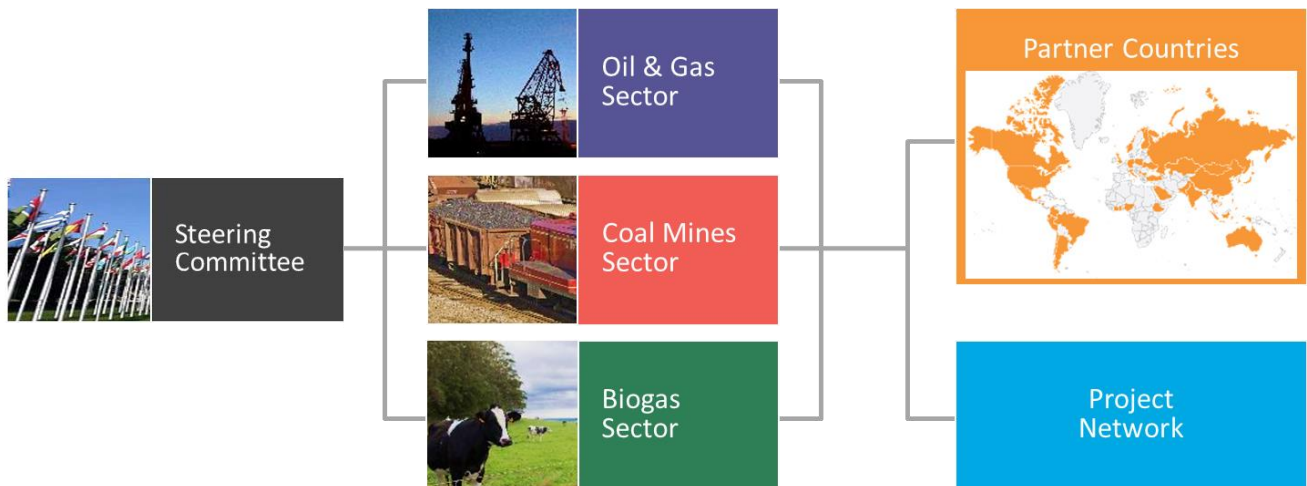

Project Network Connections

GMI helps connect organizations with similar interests to facilitate an exchange of information. Project Network members can be searched and filtered by organization name, sector, geographic location, and organization type, and contact information is available on each Project Network member's profile. GMI promotes collaboration and communication among Project Network members.

About the GMI

The GMI is a multilateral partnership focused on advancing cost effective, near-term methane abatement, recovery, and use projects. The GMI consists of a Steering Committee, three technical Subcommittees, 45 Partner Countries, and 700+ Project Network members that work together to promote project development and encourage active engagement from the private sector.

Joining the Project Network

Open to All

The Project Network is open to private-sector entities, financial institutions, and other governmental and non-governmental organizations with an interest in methane abatement, recovery, and use projects.

Free to Join

There is no cost to join the Project Network.

Voluntary

As with participating in any GMI activity, joining the Project Network is completely voluntary.

Non-Binding

Participants may opt-out of the Project Network at any time.

Join Today!

Simply fill out a non-binding partner agreement at:

<https://www.globalmethane.org/project-network/>

You will immediately receive an email confirming your membership. Your information will be added to the GMI website in 10 business days.

Questions?

Visit GMI's Project Network Page or email us at secretariat@globalmethane.org

The screenshot shows the 'Global Methane Initiative (GMI) Project Network Membership Agreement' form. It includes the GMI logo and a detailed description of the initiative's goals and the agreement's terms. The form contains several sections for data entry:

- Organization Information:** Fields for Name, Title, and Web site.
- Mailing Address:** Fields for City/State/Zip and Country.
- Contact Information:** Fields for Email and Telephone.
- Authorized Representative:** Fields for Signature and Date.
- Areas of Interest:** A grid of checkboxes for Agriculture (Animal Waste Management), Coal Mines, Landfills, Oil and Gas Systems, and Municipal Wastewater.
- Project Network Membership Responsibilities:** A list of bullet points outlining the member's obligations, such as supporting global methane reduction goals and participating in GMI-sponsored activities.

At the bottom, there is a footer with contact information: 'Please email completed form to asg@globalmethane.org or Register online at: <http://globalmethane.org/project-network/pmrmJoin.aspx>'.
